

WARRIOR® TRS TOILET REPAIR SET

D-I-Y REPAIR SET FOR TOILET WATER LEAKAGE; NO HACKING REQUIRED.

WARRIOR TRS- TOILET REPAIR SET is a complete set of materials designed for D-I-Y (Do It Yourself) repair of toilet water leakage. It is the simplest and most economical product kit that allows everyone to stop toilet water leakage in a professional way.

TRS- TOILET REPAIR SET consists of:-

WARRIOR SS-10 SHOWER SEAL

Function: Invisible and deep penetrating water repellent. Will penetrate and seal up the micro pores and cracks. Minimal stain and traces on surface.

WARRIOR W-1D CEMENT STRENGTHENER

Function: Significantly increases the bonding strength, hardness and water tightness of the tile grout. Can be poured into cracks to seal up the gaps.

Tile Grout: Better bonding strength than normal white cement. Minimal shrinkage or crack.
Also included: Paint brush, plastic scrapper, plastic cup

WARRIOR® TRS

TOILET REPAIR SET

D-I-Y REPAIR SET FOR TOILET WATER LEAKAGE; NO HACKING REQUIRED.

APPLICATION METHOD

1. Clean the surface to be treated. Remove any faulty, loose or cracked tile joint.
2. Allow the surface to dry for one day (do not use the toilet).
3. Apply, by brush, **SS10** generously onto the entire tile joint.
4. After 30 minute, apply 2nd coat of **SS10**. Wipe away the chemical residue on the tile surface.
5. After 30 minute, **add W-1D to tile grout** cement gradually and mix until a sticky homogenous paste is achieved. Press the grout cement paste into the tile joint firmly.
6. Wipe away the grout stain on the tile surface.
7. Allow ONE DAY for chemical curing and cement setting.
8. JOB DONE.

Reminder:

Always do a patch test of SS10 (apply a drop on tile at a remote corner, and check for any undesirable surface stain the next day) prior to full scale application.
